Aphrodite Fitting Instructions

1. Care should be taken when handling the fountain. It is heavy and you may need help.
2. Your feature is despatched fully assembled. All you need to do is place your feature in its desired location, fill with water, ensuring that the pump is fully submerged and connect to a suitable mains supply - THAT'S ALL THERE IS TO IT!!! Some of the decorative stones may have become dislodged during transit, just replace as required.

For safety: Always use a circuit breaker for outdoor appliances! Protect the cable by running it inside a cable conduit or reinforced garden hose.

**We hope you enjoy your feature for many years
and thank-you for purchasing from
